---

## SUMMARY

My research interests include efficient runtime/middleware for distributed deep learning, system-level performance modeling and software/hardware co-design.

---

## SKILLS

- **Programming languages:** C/C++, Python
- **Tools and frameworks:** LLVM, Caffe2, PyTorch, Darknet, OMNeT++, lwIP.
- Project experiences with operating system kernel programming, multi-threaded programming (POSIX pthreads) and network programming (Socket Programming in C).

---

## EDUCATION

- **Ph.D. in Electrical and Computer Engineering;** Dec. 2014 – May 2019  
*University of Texas at Austin;*  
*Advisor: Prof. Andreas Gerstlauer* *Austin, Texas*
- **M.S. in Electrical and Computer Engineering;** Aug. 2012 – Dec. 2014  
*University of Texas at Austin; GPA: 3.93/4.00* *Austin, Texas*
- **B.S. in Electrical Engineering;** Sep. 2008 – Jun. 2012  
*Zhejiang University; GPA: 3.95/4.00* *Zhejiang, China*  
*Honored Minor: Advanced Honor Class of Engineering Education (ACEE)*

---

## FULL-TIME EXPERIENCE

- **Facebook** Menlo Park, CA  
*Research Scientist* *Oct. 2019 - Present*
  - Ads Machine Learning (ML) Ranking Infrastructure: Tech Lead on Ads ML Serving Infra PyTorch enablement and massive adoption
  - PyTorch: PyTorch inference runtime and compiler
- **University of Texas at Austin** Austin, Texas  
*Graduate Research Assistant/Teaching Assistant* *Aug. 2012 - May 2019*
  - **DeepThings:** Research project focusing on a portable and lightweight runtime framework for locally distributed CNN/DNN inference in resource-constrained IoT edge clusters, developed in C [2].
  - **Network-of-Systems Simulator (NoSDSE):** Research project focusing on a source-level network/system co-simulation framework for distributed embedded/mobile computing cluster prototyping, developed in C++ with LLVM, OMNeT++ and SystemC framework [1].
  - Teaching Assistant: EE382N Embedded System Design and Modeling (Fall 2015), EE319K Introduction to Embedded Systems (Fall 2012)

---

---

## PROFESSIONAL SERVICE

- **Technical Program Committee (TPC) Member:**
  - Design Automation Conference (DAC) 2021 (Session manuscript reviewer)
  - Design Automation Conference (DAC) 2022, 2023 (Session manuscript reviewer and presentation co-chair)
- **Reviewer:**
  - IEEE Transactions on Computer-Aided Design of Integrated Circuits and Systems (TCAD)
  - IEEE Transactions on Parallel and Distributed Systems (TPDS)
  - IEEE Internet of Things Journal (IoT-J)
  - Design, Automation and Test in Europe (DATE) Conference, 2018
  - IEEE/ACM/IFIP International Conference on Hardware/Software Codesign and System Synthesis (CODES+ISSS), 2018
- **Teaching:**
  - Teaching Assistant: EE382N Embedded System Design and Modeling, 2016
  - Teaching Assistant: EE319K Introduction to Embedded System, 2012

---

## HONORS AND AWARDS

- Best in Session Award for the presentation “Automated, Retargetable Back-Annotation for Host-Compiled Power and Performance Modeling,” in Semiconductor Research Corporation (SRC) TECHCON, Sep 11, 2013
- National Scholarship in China (2%), 2009, 2010
